2025 Household Income & Award Tiers

How to accurately calculate your 2025 income

Scholarships are awarded based on a family's 2025 household income

- Please review our [Income Calculator](#) and [Income FAQ](#) for tips on calculating your income. For the purposes of the scholarship program, we require the reporting of **all taxable or untaxable money received**, before deductions, by **all members of your household for 2025**.
- We define a **household member** as anyone who lives with you and shares income and expenses of the household.
- *Provide your best estimate of the income received (before deductions) by your household during 2025 using the Income Calculator. Refer to our [Income Chart to determine your student's Award Tier](#).*
